

# Yellow I

*Yellow I* is a spy. He lives at the top of a lighthouse.

He loves gadgets of all sorts, such as his lightsaber, his iPad, his microscope and his iPhone. He is a tech wizard!

His main job is to watch over the other monsters from his lighthouse. When a monster is in trouble, the lighthouse blinks and *Yellow I* jumps into action. He has many modes of transport, such as a helicopter, a jet ski, a speed boat and even a super-fast jet!

He is always willing to solve a mystery and to act as a spy on secret missions. He always has a magnifying glass close at hand.
